Course Title & Code		SOCMJ11	INTRODUCTION TO SOCIOLOGY-I		
Category of Course,	Major				
Credits & Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3+1			
	Hours of Teaching (Total)	45+15			
Courses Objectives	1. Gain a deep understanding of core sociological concepts and theories. 2. Develop advanced skills in sociological analysis and critical thinking. 3. Explore the historical development of sociology as a discipline and its relevance in contemporary society.				
Course Content	The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content				Hr. of Teaching
I	Introduction to Sociology and its Scope • Definition and Formalistic and Synthetic School of Sociology • The Sociological Imagination: C. Wright Mills • Sociology as a Science: Positivism vs. Interpretivism				15
II	Origins and Development of Sociology • Enlightenment and the Birth of Sociology • Founding Fathers of Sociology: Comte, Durkheim, Weber, Marx • Development of Sociology as a Discipline				15
III	Key Concepts in Sociology • Society and Community, Associations, and Institutions • Socialisation • Social Groups and Culture • Role and Status • Power and Social Norms				15
Texts/ References	1. Bottomore, T. B. (2008) Sociology: A Guide to Problems and Literature, New Delhi: S.Chand. 2. Giddens, A. (1991) Introduction to Sociology, Polity Press. 3. Haralambos & Holborn, (2014) Sociology: Themes and Perspectives Harper Collins;Eighth edition. 4. Horton, P.B. and Hunt, C.L. (1964) Sociology. McGraw Hill Book Company, NewYork, 67. 5. Inkles, A. Course Title & Code		SOCVA11	INDIAN KNOWLEDGE SYSTEM/ INDIAN CULTURAL STUDIES		
Category of Courses,	VAC-Value Added Course				
Credits & Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3L+1T			
	Hours of Teaching (Total)	60			
Courses Objectives	The course introduces students to distinct Indian intellectual traditions by exploring the ideas of thinkers like Mahatma Gandhi, Deendayal Upadhyay, Rabindranath Tagore, M.N. Roy, Sri Aurobindo, A.K. Ramanujan, Bankim Chandra Chattopadhyay, Ananda Coomaraswamy, and S. Radhakrishnan. Departing from conventional approaches, this course explores Indian experiences through the perspectives of its thinkers, offering diverse views on Indianness. While acknowledging the blended and evolving nature of Indian thought, the course focuses on key texts from the late 19th century to examine Indian subjectivity, its uniqueness, authenticity, implications for nationhood, and the balance between particularism and universalism.				
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content				Hr. of Teaching
I	Defining India: Aurobindo’s Spiritual Vision, Ramanujan’s Literary Interpretation, and Bankimchandra’s Nationalism				15
II	Interpreting Self and Nation: Mahatma Gandhi, Deendayal Upadhyay, Rabindranath Tagore and M.N. Roy				20
III	Art and aesthetics: Coomaraswamy, Aurobindo and Radhakrishnan				10

	13. Tagore, Rabindranath. 2005. "Nationalism in India". Rabindranath Tagore Omnibus III. Rupa: New Delhi. 14. Upadhyay, Deendayal. Integral Humanism. 1965. http://www.chitrakoot.org/download/IntegralHumanism.pdf
Learning Outcomes	By the end of this course, students will have developed a critical understanding of Indian intellectual traditions and the distinct ways in which Indian thinkers have articulated ideas of self, subjectivity, nationhood, and culture. They will be able to analyze and critique the limitations of Western frameworks when applied to Indian experiences and appreciate the diversity within Indian thought. Students will gain familiarity with key texts and philosophical contributions from figures like Gandhi, Aurobindo, Tagore, and others, allowing them to understand complex ideas about spirituality, art, aesthetics, and cultural identity from an Indian perspective. They will also learn to navigate the interplay between localism, nationalism, and globalism in Indian contexts, fostering an ability to engage with cultural studies in a more nuanced and contextually relevant way that respects the specificity of Indian intellectual and cultural expressions.

Course Title & Code		SOCMD11	INVITATION TO SOCIOLOGY			
Category of Courses,		MD (Multidisciplinary)				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3				
	Hours of Teaching (Total)	45+15				
Courses Objectives	This course offers a gateway into the world of sociology for students from non-sociological disciplines. It aims to bring sociology to life by showcasing its unique perspective, concepts, and practices through engaging studies of everyday life. The course introduces students to the social dimensions of daily experiences, helping them connect the social with the personal and cultivate a sociological imagination. It challenges the often-overlooked structures in society and acquaints students with some of the core concepts and issues within the discipline.					
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	Sociology, Science and Common Sense					
II	An Invitation to Sociological Imagination					
III	Basic Concepts a. Culture b. Social Interactions and Institutions c. Social Change d. Sociology of Personal Life					
IV	Sociology of Everyday Life

(2016). <i>Sociology in Everyday Life</i> (4th ed.). Long Grove, IL: Waveland Press
Learning Outcomes	After studying the paper, students should be able to appreciate and adopt a sociological perspective in their understanding of reality. They will gain an understanding of the basic concepts in sociology and learn to relate these concepts to both the micro and macro aspects of social life. Additionally, students will develop a sociological way of thinking that enhances their analytical and critical approach to societal issues.

Course Title & Code		SOCSE11	FIELD DATA COLLECTION AND MANAGEMENT			
Category of Courses,		SEC-Skill Enhancement Course				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3				
	Hours of Teaching (Total)	45+15				
Courses Objectives	The learning objectives for the “Field Data Collection and Management” syllabus in sociology are to equip students with essential skills and knowledge for conducting field research. Students will learn the importance of fieldwork as a fundamental method, understand research design, and develop the ability to formulate research questions, select field sites, and determine sampling strategies while considering ethical standards. They will be trained in various data collection methods, including qualitative, quantitative, and mixed-methods approaches. The course aims to develop competencies in data recording, storage, and organization, such as note-taking, transcription, coding, and using software for qualitative and quantitative data management. Students will be introduced to data analysis techniques, including thematic, content, and narrative analysis, and gain an understanding of statistical methods, data visualization, and interpretation. Finally, they will learn to effectively write and report field data, enhancing their ability to communicate research findings and draw meaningful conclusions.					
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	Fieldwork: Definition and Importance, fieldwork as a fundamental method. Research Design and Planning: Steps, formulating research questions, selecting a field site and determining a sampling strategy. Ethical Considerations in Fieldwork.					
II	Methods of Data Collection: Qualitative-Quantitative Data Collection Methods & Mixed Methods Research.					
III	Data Recording and Storage: Note-taking, audio and video recording, transcription, and digital data management. Data Organization: Coding qualitative data, creating databases for quantitative data and managing field notes. Software for Data Management: Introduction to qualitative (NVivo, Atlas.ti, Dedoose, Quirkos) and quantitative (SPSS, JASP, Stata, Excel) data analysis software.					
IV	Qualitative Data Analysis: Thematic analysis, content analysis and narrative analysis. Quantitative Data Analysis: Descriptive and inferential statistics, data visualization, and interpretation. Writing and Reporting Field Data: Structuring research reports, presenting findings, drawing conclusions.

Yin, R. K. (2018). <i>Case Study Research and Applications: Design and Methods</i> (6th ed.). SAGE Publications.
Learning Outcomes	Upon completing the “Field Data Collection and Management” syllabus in sociology, students will be able to effectively design and execute fieldwork, demonstrating a clear understanding of its definition, importance, and role as a core research method. They will be proficient in formulating research questions, selecting field sites, and developing appropriate sampling strategies while upholding ethical standards. Students will acquire skills in employing diverse qualitative, quantitative, and mixed-methods data collection techniques. They will competently record, store, and organize data through various methods and tools, including software like NVivo, SPSS, and Excel. The course will enable them to conduct qualitative analyses, such as thematic, content, and narrative analysis, and perform quantitative analyses, including descriptive and inferential statistics and data visualization. Students will also develop the ability to write comprehensive research reports, present findings effectively, and draw meaningful conclusions, preparing them to contribute rigorously to sociological research.

Category of Course		Major				
Credits & Hours of Teaching			Theory	Practical	Cumulative	
		Credits	3+1			
		Hours of Teaching (Total)	45+15			
Courses Objectives		This course introduces the sociological processes and modes of constructing knowledge about Indian society. It aims to critically explore how various epistemological frameworks—colonial, nationalist, and subaltern—shape our understanding of social realities. The course also examines key sociological concepts and institutions, such as the caste system, class structures, and family dynamics, to comprehensively understand the diversity and complexity within Indian society. It also addresses issues related to tribal communities, including definitional challenges, identity, and developmental concerns.				
Course Content		The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content					Hr. of Teaching
I	Indian Society: An Epistemological Inquiry - The Colonial Discourse - The Nationalist Discourse - The Subaltern Critique					10
II	Indian Society: Structure and Hierarchy - Caste System: Structure, Function, and Change. - Caste, class and power - Class Formation in India: Emergence, Types, and Challenges of Agrarian, Middle, and Urban Working Classes					15
III	Family, Marriage, and Kinship in India: Traditional Structures, Disintegration Debates, and Dynamics					10
IV	Tribal Society in India: Definitional Dilemmas, Adivasi Identity, and Developmental Challenges					10

Radhakrishnan, Meena (Ed) (2016). First citizens: studies on adivasis, tribals, and indigenous peoples in India. Oxford University Press.
Learning Outcomes	By the end of this course, students will develop a critical understanding of how colonial, nationalist, and subaltern perspectives shape knowledge about Indian society. They will assess the sociological dimensions of social hierarchies, including the caste system and class formation, and explore intersections of caste, class, and gender. Students will investigate traditional and evolving structures of family, marriage, and kinship, analyzing their implications for societal change. They will also understand the sociological aspects of tribal identity and development, addressing definitional challenges and the broader societal dynamics affecting tribal communities.

Category of Courses	VAC-Value Added Course				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	2			
	Hours of Teaching (Total)	45+15			
Courses Objectives	The present course aims to explore the basic concepts of gender and society. It mainly focuses on Masculinity and femininity, patriarchy and division of labour in our society. It will also cover the various theories of feminism namely Liberal, Socialist, Radical and Post-modernism. Students will also get to know about the constitutional guarantees and family laws. Additionally, the course will discuss the different legislature and judiciary debates surrounding the laws relating to females.				
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content				Hr. of Teaching
I	Introduction -Basic concepts - Sex and Gender - Masculinity & femininity - Patriarchy - Sexual division of labour				
II	Feminisms - Liberal - Socialist - Radical - Postmodernism				
III	Gender and Citizenship - Constitutional Guarantees & Family Laws - Reservation for women in panchayats to Parliament - Rights within marriage - Property rights - Children custody and guardianship				
IV	Feminist Critique of Laws - Sameness vs difference debate - Substantive equality - Legislature: Laws on rape, domestic violence, dowry & property rights, PNDT Act - Judiciary: Sexist Court rulings

Learning Outcomes	Upon completing the course student will gain a comprehensive understanding of gender and society including the feminist theories. They will also explore different kinds of constitutional guarantees and rights available to women in India. Additionally, students will be able to critically evaluate the different legislative and judicial debates of the present times relating to women.

Course Title & Code		SOCVA22	DEVELOPMENT AND ITS DISCONTENT			
Category of Courses,		VAC-Value Added Course				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	2				
	Hours of Teaching (Total)	45+15				
Courses Objectives	This course delves into the complex interplay between modernity and development. Students will explore Marshall Berman’s concept of “All That Is Solid Melts into Air” and Ulrich Beck’s “Risk Society” to understand modernity’s impact and contemporary risks. The course will then investigate development as a process and political construct, focusing on development as discourse and James Ferguson’s “Antipolitics Machine,” with guidance from Tania Murray Li on various methodologies. The final segment addresses post-development theory, urging students to critique mainstream narratives and explore alternative approaches. By the course’s end, students will be adept at analyzing modernity and risk, evaluating the political dimensions of development practices, and proposing alternative strategies. They will gain a nuanced understanding of development as a concept deeply rooted in modernity and Eurocentrism, examining how development as a process, discourse, and activity reflects these influences and assessing Eurocentric perspectives while exploring broader viewpoints.					
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	Modernity and Paradox of Development: - Marshall Berman: All that is solid melts into air - Ulrich Beck: Risk society					
II	Development as Process and Politics - Development as Discourse - Development as Antipolitics Machine: James Ferguson - How should we study development: Tania Murray Li					
III	Post-Development Theory and the Question of Alternatives

	8. Scott, James C. (1998). <i>Seeing Like a State: How Certain Schemes to Improve the Human Condition Have Failed</i>. Yale University Press 9. Ferguson, James. (1990). <i>The Anti-Politics Machine: "Development," Depoliticization and Bureaucratic Power in Lesotho</i>. Cambridge: Cambridge University Press 10. Ziai, Aram (Ed.). (2007). <i>Exploring Post-Development: Theory and Practice, Problems and Perspectives</i>. London: Taylor & Francis.
Learning Outcomes	Upon completing this course, students will have developed a nuanced understanding of the relationship between modernity and development. They will be able to critically analyze how modernity influences development processes and risks, using concepts such as Marshall Berman's "All That Is Solid Melts into Air" and Ulrich Beck's "Risk Society." Students will effectively assess development as both a political construct and a discourse, drawing insights from James Ferguson's "Antipolitics Machine" and Tania Murray Li's methodologies. They will also be capable of evaluating and challenging Eurocentric perspectives on development, identifying their implications and limitations. Finally, students will propose and critically assess alternative development strategies informed by post-development theory, demonstrating an ability to engage with and expand traditional development models. This comprehensive approach will equip students to navigate and contribute to discussions on development with a well-rounded perspective.

Course Title & Code		SOCMD21	NATURAL RESOURCE MANAGEMENT			
Category of Courses,	MD(MULTIDISCIPLINARY)					
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3				
	Hours of Teaching (Total)	45+15				
Courses Objectives	Upon completing this course, students will have developed a thorough understanding of Natural Resource Management (NRM), including its principles, scope, and various management strategies. They will be able to analyze the interactions between human societies and natural systems, gaining insights into how these dynamics impact resource management. Students will critically evaluate the effectiveness of governance frameworks and policies, such as the Forest Rights Act (FRA) and Panchayats (Extension to Scheduled Areas) Act (PESA), and will be equipped to use Participatory Rural Appraisal (PRA) and Rapid Rural Appraisal (RRA) techniques to gather and analyze community-based data. Additionally, students will apply insights from case studies on community-based management to address real-world challenges, proposing practical solutions and integrating theoretical knowledge with practical applications. This comprehensive approach ensures that students are prepared to tackle contemporary resource management issues with both a solid theoretical foundation and practical skills.					
Course Content	The course content be divided into minimum 3 Units to maximum 5 units along with defined hour of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Overview of Natural Resource Management (NRM) Human-Natural System Interactions					10
II	Property rights regimes: overview Institutional Mechanisms: • Forest Management Committees • Watershed Committees Legal Frameworks: • Forest Rights Act (FRA) Panchayats (Extension to Scheduled Areas) Act (PESA)					15
III	Participatory Rural Appraisal (PRA) and Rapid Rural Appraisal (RRA)					10
IV	Case Study on NRM • Community Forestry (Van Panchayats) – Arun Agarwal • Livelihood and Social Capital in Vulnerable Ecosystems: A Case Study from Indian Sundarbans					10

Learning Outcomes	This course is designed to equip students with a thorough understanding of Natural Resource Management (NRM) through a series of focused objectives. It aims to build a foundational knowledge of NRM by exploring its principles, scope, and the various strategies used to manage natural resources. Students will delve into the interactions between human societies and natural systems, gaining insights into how socio-ecological dynamics affect resource management. Additionally, the course will critically assess the roles of governance structures and policies in NRM, with a specific focus on collective management frameworks such as the Forest Rights Act (FRA) and the Panchayats (Extension to Scheduled Areas) Act (PESA). By analyzing case studies of community-based management, students will learn to address practical challenges and derive solutions for real-world resource management issues. Upon completion, students will be adept at understanding NRM fundamentals, analyzing human-natural interactions, evaluating governance and policy effectiveness, and applying case study insights to contemporary management challenges.

Course Title & Code		SOCSE21	CSR TRAINING		
Category of Courses,	SEC-Skill Enhancement Course				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3			
	Hours of Teaching (Total)				
Courses Objectives	The paper seeks to navigate the nuances of doing and contributing to structured community engage through Corporate Social Responsibility [CSR]. It starts with a general introduction to the concept in its historical context and delineates different phases and approaches to its growth. The paper then covers the legal framework globally and in India focusing on principles and present practices.				
Course Content	The course content should be divided into a minimum of 4 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content				Hr. of Teaching
I	- Corporate Social Responsibility: Concept, History and Evolution, Components and Approaches. - Globalisation and Corporate Social Responsibility - Opportunity and Threat: Arguments for and against CSR				
II	- Global Legal Framework: U N Conventions, U N Global Compact, ILO declaration on Multinational Companies and Social Policy, Social Accountability International [SAI], OECD CSR Policy Tool - National Legal Framework: Companies Act 2013, National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business. - CSR Planning and Strategising: Corporate Social Responsibility as a Process				
III	- Scope of Corporate Social Responsibility in India: Internal and External CSR practices in Leading Indian Organisations - Educational Tour of Communities engaged through CSR				
Texts/References	- Katamba, D. et. al. [2012], Principles of Corporate Social Responsibility: A guide for students and practicing managers in developing and emerging countries, Strategic Book Publishing and Rights Co., Houston. - Handbook on Corporate Social Responsibility in India, Confederation of Indian Industries [CII], www.pwc.in - India CSR Outlook Report, 2023, www.csrbox.org - Gouda M Sateesh et. al. Uberoi, P. ed., (1993) Family, Marriage and Kinship, Asian Publishing House.				
Learning Outcomes		The students will be able to; 1. explain the interdisciplinary connections between sociology and other socialsciences, 2. distinguish between different forms of social stratification, analyse role of different social institutions.				

Course Title & Code		SOCMJ32	INDIAN SOCIETY AND CULTURE			
Category of Courses,		Major				
Credits& Hours of Teaching			Theory	Practical	Cumulative	
		Credits	3+1			
		Hours of Teaching (Total)	45			
Courses Objectives		This course aims to provide a comprehensive understanding of Indian society and culture through various perspectives. It will explore historical and contemporary accounts, including missionary and Oriental perspectives, and delve into Indological, historical, and structural-functional approaches to studying Indian society. Students will examine the family as both a sociological module and model and analyze the village as a unit of social organization. The course will also address the Jajmani system, its socio-economic implications, and critiques. Religion's role in social dynamics will be explored, focusing on Hinduism, Islam, and other influences. Additionally, students will investigate modernity, tradition, and transitions in Indian society, with a focus on current issues such as communalism, regionalism, casteism, and the rise of paracommunities.				
Course Content		The course content be divided into minimum 3 Units to maximum 5 units along with a defined hour of teaching for each unit.				
Units	Course Content					Hr. of Teaching
I	Understanding Indian Society and Culture: Missionary vs. Oriental accounts. Indological, Historical, and Structural-Functional Perspectives on the Study of Indian Society and Culture					20
II	Social Institutions: Marriage (Hindu and Muslim) Kinship terminologies in India Family, Jati and Village Jajmani System as a Socio-economic System and Its Critique					15
III	Civilizational Unity of India Current Issues: Communalism, Regionalism, Casteism and rise of Para communities.					10

Review of <i>Regions and Regionalism in South Asian Studies: An Exploratory Study</i>, by R. I. Crane. <i>Pacific Affairs</i>, 43(1), 136–139.
Learning Outcomes	By the end of this course, students will critically analyze missionary and Oriental accounts of Indian society, comparing them with indological, historical, and structural-functional perspectives. They will examine the role of the family as both a module and model and evaluate the village's significance in traditional and modern contexts. Students will gain insight into the socio-economic structure of the Jajmani system and its critiques. Additionally, they will explore the role of religion in shaping social dynamics, particularly Hinduism and Islam, and assess the interplay between modernity and tradition. Lastly, they will be able to evaluate the contemporary issues like communalism, regionalism, casteism, and the rise of paracommunities

Course Title & Code		SOCMV31		SOCIOLOGY OF TOURISM		
Category of Courses,		MINOR VOC				
Credits& Hours of Teaching			Theory	Practical	Cumulative	
		Credits	3+1			
		Hours of Teaching (Total)	45			
Courses Objectives		The objective of studying the Sociology of Tourism syllabus is to provide students with a comprehensive understanding of the social, cultural, and economic aspects of tourism. The course introduces the fundamental concepts, definitions, and significance of tourism, alongside sociological theories such as Functionalism, Conflict Theory, and Interactionism, emphasizing their relevance in analyzing tourism. It also explores the historical development of tourism and its role in shaping societies. The syllabus focuses on the relationship between tourism and social inequality, addressing caste, class, and gender issues, while examining how tourism impacts local cultures, traditions, rural and tribal communities. The role of tourism in identity formation, cultural commodification, and religious pilgrimage in India is also discussed. Additionally, the influence of globalization and media in shaping tourism is explored. The final unit delves into the socio-environmental impacts of tourism, with an emphasis on sustainable development. It examines national and international tourism policies, highlighting challenges related to employment, gender, and inequality. This study equips students with critical insights into the dynamics of tourism in India and beyond.				
Course Content		The course content be divided into minimum 3 Units to maximum 4 units along with a defined hour of teaching for each unit.				
Units	Course Content					Hr. of Teaching
I	Introduction to Tourism and Sociology - Definition, scope, and significance of tourism - The social, cultural, and economic aspects of tourism - Theories and perspectives on tourism (Functionalism, Conflict, Interactionism) - Historical development of tourism					20
II	Tourism, Society, and Culture - Tourism and social inequality: Caste Class and Gender - Tourism and social change - Impact of tourism on local cultures and traditions - Tourism and identity (cultural commodification, authenticity) - Impact of tourism on rural and tribal communities - Religious and pilgrimage tourism in India - Globalization and tourism: The role of media and technology					15
III	Tourism, Development, and Environment - Tourism and sustainable development - Tourism policies and planning: National and international perspectives - Socio-environmental impacts of tourism (ecotourism, environmental degradation) - Challenges and opportunities in tourism (employment, gender, inequality)					10

Cohen, E., & Cohen, S. A. (2012). Current sociological theories and issues in tourism. <i>Annals of Tourism Research</i>, 39(4), 2177-2202.
Learning Outcomes	Upon completing the Sociology of Tourism syllabus, students will be able to critically analyze tourism through a sociological lens, understanding its multifaceted role in society. They will develop the ability to apply key sociological theories, such as Functionalism, Conflict Theory, and Interactionism, to tourism, identifying its social, cultural, and economic dimensions. Students will also gain insights into how tourism intersects with issues of social inequality, particularly regarding caste, class, and gender, and its impact on identity, cultural commodification, and community dynamics. They will be equipped to evaluate the transformative effects of tourism on rural and tribal communities, as well as its role in religious and pilgrimage contexts in India. Furthermore, learners will understand the global and local implications of tourism, including its environmental and socio-economic impacts, and will critically engage with the challenges of sustainable tourism. They will also be able to assess tourism policies and development strategies at both national and international levels.

Course Title & Code		SOCMD31	CINEMA AND SOCIETY			
Category of Courses,		MULTIDISCIPLINARY				
Credits& Hours of Teaching			Theory	Practical	Cumulative	
		Credits	3			
		Hours of Teaching (Total)	45+15			
Courses Objectives		- To understand the historical development of cinema and its relationship with society. - To analyze films as cultural texts that reflect and shape social realities.				
Course Content		The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content					Hr. of Teaching
I	Introduction & Historical Overview - Relationship between cinema and society - Film as a cultural text - The birth of cinema and silent films, - Global spread of cinema.					15
II	Cinema and Ideology-films as vehicles of Ideology Gender and Cinema representations of gender in film					15
III	Digital Age and New Media - The impact of digital technology on cinema, - the rise of streaming platforms, - the democratization of film production.					15
Texts/ References		1. Bazin, A. (2004). <i>What Is Cinema? Volume II</i> . Berkeley: University of CaliforniaPress. 2. Butler, J. (1990) <i>Gender Trouble: Feminism and the Subversion of Identity</i> . Routledge, New York, 33. 3. Hall, S. (2001b). The Spectacle of the “Other”. In M. Wetherell, S. (1960) <i>Theory of Film: The Redemption of Physical Reality</i> . OUP.				
Learning Outcomes		The students will be able to; 1. Understand the historical evolution of cinema along with its global spread, 2. See cinema as vehicles of ideology 3. Critically analyse the representations of gender 4. Understand the impact of new media and variety of digital platforms.				

Course Title & Code		SOCSE31	ACADEMIC WRITING			
Category of Courses,		SEC-Skill Enhancement Course				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3				
	Hours of Teaching (Total)					
Courses Objectives	1. To Understand the principles of academic writing, including clarity, coherence, and precision. 2. To Develop skills in constructing logical arguments and supporting them with evidence.					
Course Content	The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	Introduction to Academic Writing Developing Arguments and Critical Thinking					15
II	Structuring an Academic Paper Writing Research Proposals					15
III	Research and Referencing 1. Citations and Referencing 2. Plagiarism					15
Texts/References	1. Graff, G., & Birkenstein, C. (2017). "They say / I say": the moves that matter in academic writing, with readings. Third edition. New York, W. W. Norton & Company. 2. Hamp-Lyons, L., & Heasley, B. (2009). Study writing: a course in writing skills for academic purposes (2. ed., 4. print). Cambridge Univ. Press. 3. Ilona, L. (1998) Academic Writing: Exploring Processes and Strategies, New York: CUP. 4. Lipson, C. (2011). Course Title & Code		SOCMJ41	SOCIAL MOVEMENT: CONCEPT AND THEORIES			
Category of Courses,		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45				
Courses Objectives		The course aims to explore the concept, nature, and components of social movements, examining their relationship with social change. It will cover various theories, including Relative Deprivation, Structural Strain, Revitalization, Resource Mobilization and Marxist. Students will analyze issues related to leadership, ideology, authority, and the state within the context of social movements. Additionally, the course will address the impact of globalization on social movements, providing a comprehensive understanding of how movements drive and respond to social change.				
Course Content		The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content					Hr. of Teaching
I	Social Movement: Concept, Nature and Components					10
II	Theories: Relative Deprivation, Structural Strain, Revitalisation, Resource Mobilization, Marxist					15
III	Social Change and Social Movement: Issues of Leadership and Ideology, Authority and State, Globalization and Social Movements					20

(1998). Power in Movement: Social Movements and Contentious Politics (2nd ed.). Cambridge University Press. 15. Buechler, S. M. (2000). Social Movements in Advanced Capitalist Societies. Routledge.
Learning Outcomes	Upon completing this course, students will understand the fundamental concepts, nature, and components of social movements. They will be familiar with key theories, including Relative Deprivation, Structural Strain, Revitalization, Resource Mobilization, Marxist and how these explain the emergence and dynamics of social movements. Students will analyze the relationship between social movements and social change, addressing issues related to leadership, ideology, authority, and the state. Additionally, they will explore the impact of globalization on social movements, gaining insights into how these movements influence and respond to social transformations in a global context.

Course Title & Code		SOCMJ42	DYNAMICS OF INDIAN SOCIETY		
Category of Courses,	Major				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3+1			
	Hours of Teaching (Total)	45			
Courses Objectives	The course aims to provide a thorough understanding of both processual and structural changes in Indian society. It will explore key concepts such as Sanskritization, modernization, secularization, and digitalization to understand how these processual factors influence societal transformation. Additionally, the course will examine structural changes brought about by the Green Revolution, industrialization, globalization, and the Fourth Industrial Revolution, focusing on their impact on economic and social structures. Students will also gain insight into Indian democracy by studying identity politics—including caste, religion, language, and ethnicity—reservation policies, and the roles of civil and political society.				
Course Content	The course content be divided into minimum of 3 Units to maximum 5 units along with defined hour of teaching for each unit.				
Units	Course Content				Hr. of Teaching
I	Processual and Functional Changes: Sanskritization, Modernization, Secularisation and Digitalisation				10
II	Structural Changes: Green Revolution, Industrialization, Globalisation, and Fourth Industrial Revolution				20
III	Indian Democracy in Practice: Inequality, Identity Politics in India (Caste, Religion, Language and Ethnicity), Reservation Policy, Civil and Political Society, Challenges of Indian Democracy.				15

(1993). <i>Nation and its fragments: Colonial and postcolonial</i>				

	<i>histories</i>. Princeton University Press 13. Joseph, S. (2002). Society vs State? Civil Society, Political Society and Non-Party Political Process in India. <i>Economic and Political Weekly</i>, 37(4), 299–305. 14. Taylor, D., & Kim, H. (Eds.). (2022). <i>Civil Society in South Asia</i> (1st ed.). Routledge. 15. Lobo, L., & Shah, J. (Eds.). (2017). <i>Democracy in India: Current debates and emerging challenges</i>. Primus Books.
Learning Outcomes	By the end of the course, students will have developed a nuanced understanding of the complex interplay between traditional and modern forces shaping Indian society. They will be able to critically assess the effects of processual changes like Sanskritization and digitalization on social dynamics. Students will also evaluate the implications of structural changes such as industrialization and globalization on economic and societal transformations. Additionally, they will be equipped to analyze the challenges faced by Indian democracy, including identity politics, reservation policies, and the roles of civil and political society. This comprehensive understanding will enable students to engage with contemporary issues in Indian society and democracy with a well-rounded perspective.

Course Title & Code		SOCMJ43	MAJOR SOCIAL MOVEMENT IN INDIA			
Category of Courses,	Major					
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	2+1				
	Hours of Teaching (Total)	45				
Courses Objectives	The course aims to explore various types of social movements, focusing on major contemporary movements in India. It will cover the components, agents, and factors of key movements, including the New Peasant Movement (e.g., Bharatiya Kisan Union), New Religious Movements, and environmental movements like Chipko and Narmada Bachao Andolan. The course will also examine feminist theories (Liberal, Radical, Marxist, Socialist, Ecofeminism) and movements related to backward classes, Dalit rights, and tribal rights, providing a comprehensive understanding of their impact and dynamics.					
Course Content	The course content be divided into minimum of 3 Units to maximum 5 units along with defined hour of teaching for each unit.					
Units		Course Content				Hr. of Teaching
I		Major Contemporary Movements with Special Reference to their Components, Agents and Factors				5
II		New Peasant Movement: Bharatiya Kisan Union, New Religious Movement in India: Introduction, Historical Background, Major NRM. Environment Movement: Chipko, Narmada Bachao Andolan, Silent Valley Movement, Climate Change Activism				20
III		Women’s Movement in India Backward Classes Movement Dalit Rights Movement: Dalit Panthers, Ambedkarite Movement, Tribal Rights Movement.				20

Learning Outcomes	Upon completing this course, students will gain a thorough understanding of various types of social movements and their impact in India. They will analyze the components, agents, and factors driving major contemporary movements, including New Peasant Movements like the Bharatiya Kisan Union, New Religious Movements, and environmental movements such as Chipko and Narmada Bachao Andolan. Students will also explore feminist theories (Liberal, Radical, Marxist, Socialist, Ecofeminism) and significant movements related to backward classes, Dalit rights, and tribal rights, equipping them with insights into the dynamics and contributions of these movements to social change.

Course Title & Code		SOCMJ44	Social Inclusion and Inclusive Policy			
Category of Courses,		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	2+1				
	Hours of Teaching(Total)	45+15				
Courses Objectives	This course aims to provide a comprehensive understanding of social exclusion and inclusion,focusing on the historical, theoretical, and structural dimensions of exclusion based on caste, class, gender, and ethnicity. Through a detailed exploration of subaltern studies, students will critically engage with the works of key thinkers such as B.R. Ambedkar, Jyotirao Phule, Periyar, and Gayatri Chakravorty Spivak, analyzing their contributions to social justice, anti-caste movements, and the envisioning of an inclusive society. The course also examines the role of the state and civil society in promoting inclusion through constitutional provisions, welfare schemes, and international frameworks. Students will critically assess the successes and challenges in implementing affirmative action and other inclusion policies in India, fostering a deeper understanding of the complexities surrounding marginalization and social change. Through this syllabus, students will develop a nuanced understanding of subaltern resistance, intersectionality, and the ongoing struggle for equality and social justice in contemporary society.					
Course Content	The course content be divided into minimum of 3 Units to maximum 5 units along with defined hour of teaching for each unit					
Units	Course Content					Hr. of Teaching
I	Social Exclusion & Social Inclusion: Definition, forms, mechanisms, theories and dimensions (economic, social, cultural, political), Marginalization, Discrimination, and Power Relations, Intersectionality: caste, class, gender, and ethnicity intersect in exclusion, Historical contexts of Exclusion, Subalternity and modes of Resistance,					
II	Subaltern Studies: Key themes and thinkers (Ranajit Guha, Partha Chatterjee, Gayatri Chakravorty Spivak), • B.R. Ambedkar: Critique of caste and envisioning a just society • Jyotirao Phule: struggle for education and social justice • Periyar: Social reform, gender equality, and anti-caste movements • Mahatma Gandhi: Views on untouchability and village reconstruction (with critical reflection) • • Sudipta Kaviraj: Postcolonial India and the politics of exclusion					
III	Role of the State and Civil Society in fostering inclusion, Constitutional Provisions: Articles related to equality, reservation policies, and affirmative action (SCs, STs, OBCs, Minorities), Welfare Schemes for Social Inclusion, Role of International Organizations, Challenges in Implementing Inclusive Policies, Evaluating the effectiveness of affirmative action and reservations

Gyan Publishing House.
Learning Outcomes	Upon completing this course, students will have developed a critical understanding of the dynamics of social exclusion and inclusion, and the complex intersections of caste, class, gender, and ethnicity in shaping marginalized identities. They will be able to analyze historical and contemporary contexts of exclusion, evaluate the role of subaltern resistance, and engage deeply with the ideas of key thinkers like Ambedkar, Phule, and Periyar on social justice and reform. Students will also gain insights into the roles played by the state, civil society, and international organizations in promoting inclusion through constitutional provisions, welfare schemes, and affirmative action. By critically assessing the successes and challenges in implementing inclusive policies, students will be equipped to reflect on and contribute to ongoing debates surrounding social change, equality, and justice in Indian society.

Sexual harassment at the workplace: Emerging Problems and debates. Economic and political weekly, Vol. XXXIX, 41 (October, 2004), Pp. 4491 – 4496. Reports.
Learning Outcomes	Upon completing the course student will gain a comprehensive understanding of gender and society including the feminist theories. They will also explore different kinds of constitutional guarantees and rights available to women in India. Additionally, students will be able to critically evaluate the different legislative and judicial debates of the present times relating to women.

Course Title & Code		SOCMJ53	CLASSICAL SOCIOLOGICAL THEORY		
Category of Courses,	Major				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3+1			
	Hours of Teaching (Total)	45+15			
Courses Objectives	This course aims to provide students with a comprehensive understanding of the foundational theories and methodologies of sociology as developed by key classical sociologists—Karl Marx, Emile Durkheim, and Max Weber. By exploring the emergence of sociology in the context of modernity and social changes in Europe, the course seeks to equip students with the ability to critically engage with the philosophical underpinnings, theoretical frameworks, and empirical analyses that shaped the discipline. Additionally, the course encourages students to assess the contemporary relevance of these classical theories in understanding current social phenomena.				
Course Content					
Units	Course Content				Hr. of Teaching
I	Modernity and Social Changes in Europe and the Emergence of Sociology - Emergence of Sociology as a discipline - Enlightenment and its impact on thinking and reasoning				
II	Karl Marx - Methodology- Dialectical materialism as a philosophical perspective of change and its laws - Class and Class Conflict - Alienation in the Capitalist Society - Contemporary relevance of Marx				
III	Emile Durkheim - Methodology- The Nature of Social Facts and their Causation - The Division of Labor and Forms of Solidarity - Suicide as a Social Fact - Contemporary relevance of Durkheim				
IV	Max Weber - Methodology- Verstehen, Value-Neutrality and Objectivity, Generality the Ideal Type - Social Action: Basic Concepts and Terms - Theory of Authority – Authority and Power – Types of Authority and bases of their Legitimacy - Contemporary Relevance of Weber

Rethinking Sociology: A Critique of Contemporary Theory. Jaipur: Rawat Publication.
Learning Outcomes	Upon completing the course, students will be able to critically analyse the emergence of sociology as a discipline rooted in Europe's intellectual and social transformations. They will develop a deep understanding of Karl Marx's analysis of capitalism, class conflict, and alienation; Emile Durkheim's exploration of social facts, division of labour, and religion; and Max Weber's concepts of social action, authority, and the relationship between religion and social change. Furthermore, students can apply these classical theories to contemporary sociological issues, demonstrating an ability to connect historical, sociological thought with modern-day social analysis.

Course Title & Code		SOCMJ54	INDIAN SOCIAL THOUGHT			
Category of Courses		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3L + 1 T				
	Hours of Teaching (Total)	45+15=60				
Courses Objectives	This course aims to explore the evolution of Indian social thought, from classical Hindu thinkers like Manu (Manusmriti) and Kautilya (Arthashastra) as well as Buddhist and Jain philosophies. It examines the foundational contributions of Indian sociologists like G.S. Ghurye on caste and tribe, M.N. Srinivas on Sanskritisation and Westernization, Radha Kamal Mukherjee on the Sociology of values, and A.R. Desai on Nationalism, and Irawati Karwe's study of family of kinship, providing a holistic view of Indian society and thought. The course also covers Gandhi's ideas of Sarvodaya, trusteeship, and non-violence, Ambedkar's fight for social justice and equality, Madan Mohan Malviya's educational reforms.					
Course Content	The course content be divided into minimum 3 units to maximum 5 units along with defined hours of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Classical Hindu Social Thinker: - Manu: Social Organization, Political Thought - Kautilya: Economic Thought, State and King					10
II	Pioneers of Indian Sociology: - G S Ghurye - Indology - M N Srinivas - Caste system, Sanskritization, Westernization - Irawati Karve - Caste system, Kinship and family structure and social change - Radha Kamal Mukherjee - Sociology of Values and Social Ecology - A R Desai - Social Background of Indian Nationalism, Critical analysis of post-independence Indian society					20
III	Indian Social Reformers and their philosophies: - M K Gandhi – Education and Society - B R Ambedkar -Social Justice, Equality, Caste System - Madan Mohan Malviya - Educational and Society					15

Learning Outcomes	Upon completing this course, students will gain a deep understanding of the evolution of Indian social thought from classical Hindu, Buddhist, and Jain philosophies to contemporary sociological perspectives. They will critically analyze foundational contributions from thinkers like Manu and Kautilya, Indian sociologists such as G.S. Ghurye and M.N. Srinivas, and reformers including Gandhi, Ambedkar, and Malviya. Students will evaluate key concepts like caste, Sanskritisation, and social justice, and understand the impact of educational reforms and kinship studies. This comprehensive approach will enable students to engage with Indian societal issues through a nuanced, historical, and theoretical lens.

Course Title & Code		SOCMV51	DIGITAL SOCIOLOGY		
Category of Courses	MINOR VOC				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3L + 1 T			
	Hours of Teaching (Total)	45+15=60			
Courses Objectives	The learning objective of the Digital Sociology syllabus is to equip students with a critical understanding of the profound impact of digital technologies on social life. Students will explore foundational theories and concepts such as the network society, digital capital, and surveillance, gaining insights into how digitalization transforms social behavior, relationships, and societal structures. The course will help students analyze the sociological implications of social media, focusing on its effects on identity, communication, and community building, while also addressing issues like digital inequality, cybercrime, and privacy. Learners will critically engage with the ways digital technologies shape inequalities and governance, examining the role of digital activism and the ethics surrounding data usage and surveillance. By the end of the course, students will be able to assess emerging digital trends and challenges, fostering a deeper sociological understanding of how digital platforms and technologies influence contemporary social structures and change.				
Course Content	The course content be divided into minimum 3 units to maximum 5 units along with defined hours of teaching for each unit.				
Units	Course Content				Hr. of Teaching
I	Introduction to Digital Sociology • Definition, scope, and significance of digital sociology • Theories and concepts in digital sociology (network society, digital capital, surveillance society) • The digital transformation of social life • The role of data, algorithms, and artificial intelligence in shaping social behaviour				10
II	Digital Culture and Society • Social media and its impact on communication, identity, and relationships • Digital inequality: Access, literacy, and the digital divide • Online communities and virtual social interaction • Cybercrime, digital surveillance, and privacy concerns				20
III	Digital Sociology and Social Change • The impact of digital technology on work, education, and governance • Digital activism and social movements • The ethics of data collection and digital platforms • The future of digital sociology: Emerging trends and challenges				15

Learning Outcomes	Upon completing the Digital Sociology syllabus, students will gain a nuanced understanding of the complex relationship between society and digital technologies. They will develop the ability to critically analyze key sociological theories, such as the network society and digital capital, and their relevance in understanding the digital transformation of social life. Students will be equipped to examine the role of data, algorithms, and artificial intelligence in shaping social behavior and will explore the sociological impact of social media on identity, communication, and relationships. They will also engage with the concept of digital inequality, understanding how access, literacy, and the digital divide affect different communities. Additionally, students will be able to evaluate the impact of digital technologies on various social institutions, such as work, education, and governance, and analyze the rise of digital activism and social movements. They will develop a critical perspective on the ethics of data use and privacy, preparing them to address emerging challenges in the digital age.

Course Title & Code		SOCMJ61	AN INTRODUCTION TO SOCIOLOGICAL RESEARCH METHOD			
Category of Courses	Major					
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives	1. Understand the key philosophical debates that inform sociological research methods. 2. Critically analyze the assumptions and implications of various methodological approaches.					
Course Content	The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	- Why Study Social Research? - The Process of Social Research					10
II	- Ontology and Epistemology in Sociological Research, - Positivism in Sociological Research					11
III	- Interpretivism and - Social Constructionism					12
IV	- Comparative Method, - Ethnographic Method					12

W. 1959, The Sociological Imagination, London: OUP Chapter 1 Pp. 3-24.					
Learning Outcomes	1. Students will be able to identify and explain the major philosophical debates that inform sociological research methods. 2. Students will evaluate the strengths and limitations of different methodological approaches in the context of specific sociological research questions.					

Course Title & Code		SOCMJ62	SOCIOLOGY OF DEVELOPMENT: CONCEPT & THEORIES			
Category of Courses		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives	The course aims to explore key concepts of development and underdevelopment in sociology, including change, progress, and development. It will cover various approaches to development such as economic, modernization, and sustainable development. Students will analyze the process and characteristics of Third World countries and examine major development theories, including neoliberalism, dependency theory, world systems theory, and postcolonialism. This will provide a comprehensive understanding of development issues and theoretical perspectives in the context of sociological research.					
Course Content	The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	The concept of Development and Underdevelopment (a) Change, Progress and Development in Sociology (b) Economic Approach to Development (c) Modernisation Approach to Development (d) Sustainable Development Developing					
II	Process and Characteristics of developing Countries					
III	Theories of Development: (a) Neoliberalism (b) Dependency Theory (c) World Systems Theory (d) Post colonialism

Columbia University Press. 15. Wallerstein, I. (1974). The Modern World-System: Capitalist Agriculture and the Origins of the European World-Economy in the Sixteenth Century. Academic Press.
Learning Outcomes	Upon completion of this course, students will understand the key concepts development and underdevelopment, including change, progress, and the (not more sociological implications. They will gain insights into various development approach than 100 such as economic, modernization, and sustainable development. Students will analy the processes and characteristics of Third World countries and critically evaluate maj development theories, including neoliberalism, dependency theory, world syster theory, and postcolonialism. This knowledge will equip them with a comprehensi understanding of the complexities and theoretical perspectives related development in the sociological context.

Course Title & Code		SOCMJ63	SOCIOLOGY OF RELIGION: CONCEPT AND THEORIES			
Category of Courses		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives		Religion exists in a social context, and always is shaped by and shapes its social context. Furthermore, religion itself is always (at least in part) a socially constituted reality--that is, its content and structure are always formed, at least partially, out of the "stuff" of the socio-cultural world (language, symbols, groups, norms, interactions, resources, organizations, etc.). The sociology of religion pursues an understanding of both the "social-ness" of religion itself and the mutually influencing interactions between religion and its social environment. This course aims to analyze religious beliefs, practices, and organizations from a sociological perspective, with a primary focus on religion in contemporary Indian society.				
Course Content						
Units	Course Content					Hr. of Teaching
I	Religion- Sociological Perspectives ➤ The sociology of religion and general sociology ➤ The sociology of religion versus other disciplines that study religion					
II	Sociological Theories of Religion ➤ Karl Marx: Religion as Projection and Illusion ➤ Emile Durkheim: Religion as Integration ➤ Max Weber: Social Action, Rationality, and Religion as Legitimation ➤ Berger and Luckmann: Religion as Social Construction					
III	Religions and Social Change ➤ Nietzsche and the Death of God; Religion in modern and Post-modern context ➤ Religion and Globalisation

The Protestant Ethic and the Spirit of Capitalism, Allen & Unwin 13. Wilson, Bryan. 1976, Contemporary Transformations of Religion, Oxford. 1982, Religion in Sociological Perspective, OUP: Oxford
Learning Outcomes	Upon completing this course, students will be able to distinguish the sociology of religion from other disciplines, understand key concepts such as the sacred and profane, and critically evaluate classical theories by Marx, Durkheim, and Weber. They will analyze contemporary theories by Berger and Luckmann and rational choice theory. Students will also assess the role of religion in social change.

Course Title & Code		SOCMJ64	DEVIANCE IN INDIA AND REMEDIAL MEASURES			
Category of Courses	Major					
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3L+1T				
	Hours of Teaching (Total)	60				
Courses Objectives	The course on deviance explores the definition and types of deviance, examining it through theoretical lenses such as functionalism, conflict, and labeling perspectives. Key theories include Howard Becker's labelling theory, Sutherland's differential association theory, R.K. Merton's strain theory, Shaw and Mackey's social disorganization theory, and Albert Cohen's subcultural theory. The course delves into mechanisms of social control, law, norms, and sanctions, with a focus on addressing deviant behaviors like white-collar crime, cybercrime, corruption, and drug abuse. It emphasizes both legal and social remedial measures to mitigate deviance in society.					
Course Content	The course content be divided into minimum 3 units to maximum 5 units along with defined hour of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Concepts and theoretical perspective 1. Definition and types of deviance 2. Theoretical perspective - functionalism, conflict and labelling					10
II	Theories of Deviance: 1. Labeling Theory (Howard Becker), 2. Differential Association Theory (Edwin Sutherland), 3. Strain Theory (RK Merton), 4. Social Disorganization Theory (Shaw& Mckay), 5. Sub Cultural Theory (Albert Cohen).					15
III	1. Social Control: law, Norms, Sanctions 2. Cultural and social factors contributing to deviant behaviour					10
IV	1. Some forms of Deviance in India with special emphasis on Remedial Measures: White Collar Crime, Cyber Crime, Corruption, and Drug Addiction 2. Legal and Social Remedial measures: Criminal Justice Reforms, Rehabilitation Programs					10

Lippincott.
Learning Outcomes	By completing this course on deviance, students will gain a comprehensive understanding of deviance, its types, and major theoretical perspectives such as functionalism, conflict, and labeling. They will develop critical insights into key theories, including labeling theory, differential association, strain theory, social disorganization, and subcultural theory. Learners will be able to analyze the impact of deviance on society, evaluate the effectiveness of social control mechanisms, and explore the role of law, norms, and sanctions in managing deviance. Additionally, they will apply theoretical knowledge to examine and propose remedial measures for issues like white-collar crime, cybercrime, corruption, and drug abuse.

Course Title & Code		SOCMV61	RURAL DEVELOPMENT AND MANAGEMENT			
Category of Courses		MINOR VOC				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3L+1T				
	Hours of Teaching (Total)	60				
Courses Objectives	The learning objective of the "Rural Development and Management" syllabus is to equip students with a comprehensive understanding of the dynamics and complexities of rural development in India. Students will gain insights into the historical evolution, significance, and key concepts related to rural development, enabling them to appreciate the socio-economic characteristics of rural populations. The course aims to familiarize students with various government schemes and strategies, such as MGNREGA and the role of cooperatives and self-help groups, in fostering sustainable rural development. Students will critically analyze agricultural development practices and the importance of rural infrastructure in enhancing living standards. Furthermore, the syllabus addresses contemporary challenges faced by rural areas, including poverty, unemployment, and environmental issues, fostering critical thinking about potential solutions. By the end of the course, students will be equipped to evaluate and monitor rural development programs effectively, utilizing relevant tools and methodologies while appreciating the role of technology in promoting rural management.					
Course Content	The course content be divided into minimum 3 units to maximum 5 units along with defined hour of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Introduction to Rural Development - Definition, scope, and significance of rural development - Historical evolution of rural development policies and programs (Indian Perspective too) - Key concepts: sustainable development, community development, and participatory approaches - Rural demographics and socio-economic characteristics of rural India					10
II	Rural Development Strategies and Programs - Government schemes for rural development (e.g., MGNREGA, Pradhan Mantri Gram Sadak Yojana) - Role of cooperatives and self-help groups (SHGs) in rural development - Agricultural development: Issues, challenges, and innovations (e.g., organic farming, agroecology)					15
III	Challenges and Management in Rural Development - Socio-economic challenges in rural areas: Poverty, unemployment, and gender inequality - Environmental issues: Climate change and its impact on rural livelihoods - Role of technology and digital initiatives in rural management - Evaluation and monitoring of rural development programs: Tools and methodologies					10

Learning Outcomes	Upon completing the Rural Development and Management syllabus, students will develop a nuanced understanding of the socio-economic dynamics of rural India and the various factors influencing rural development. They will be able to critically analyze the historical evolution and significance of rural development policies and their impact on local communities. Students will demonstrate knowledge of key government initiatives and programs aimed at improving rural livelihoods, such as MGNREGA and the promotion of self-help groups, and will understand their role in empowering rural populations. They will evaluate agricultural development practices, assessing the challenges and innovations that contribute to sustainable rural growth. Additionally, students will identify and address pressing issues such as poverty, unemployment, gender inequality, and environmental sustainability within rural contexts. They will acquire the skills to effectively monitor and evaluate rural development programs using appropriate methodologies and tools. Ultimately, students will be prepared to contribute meaningfully to rural development efforts, advocating for sustainable practices and policies that promote social equity and community empowerment.

Course Title & Code		SOCMJ71	QUALITATIVE RESEARCH METHODS		
Category of Courses	Major				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3L+1T			
	Hours of Teaching (Total)	45+15			
Courses Objectives	The course on Qualitative Research Methods aims to introduce students to the history and evolution of qualitative research. It will explore the historical development and philosophical foundations of qualitative methodologies. The course covers fundamental qualitative techniques such as ethnography and focus group discussions (FGD), alongside advanced methodologies like case study analysis, and narrative analysis. Through hands-on experience with data collection and analysis, students will develop practical skills in conducting qualitative research, critically analyzing data, and crafting detailed research reports. This course aims to enhance student's ability to conduct sociologically informed qualitative research and present their findings with clarity and depth. Students will gain practical skills in analyzing qualitative data and writing detailed research reports, enhancing their ability to conduct and present qualitative research effectively.				
Course Content	The course content be divided into minimum 3 Units to maximum 5 units along with defined hour of teaching for each unit.				
Units	Course Content				Hr. of Teaching
I	Introducing Qualitative Research - History of Qualitative Methods - Philosophical Approaches to Qualitative Research				15
II	Qualitative Methods and Techniques – I - Ethnography as Method and Methodology - Focus Group Discussion (FGD)				10
III	Qualitative Methods and Techniques – II - Case Study Method - Narrative Analysis - Analysing Qualitative Data and Writing Qualitative Reports				10
IV	Introducing Qualitative Research - History of Qualitative Methods - Philosophical Approaches to Qualitative Research				10

SAGE Publications. 21. Mason, J. (2018). <i>Qualitative researching</i> (3rd ed.). SAGE Publications.
Learning Outcomes	Upon completing this course, students will gain a thorough understanding of the historical debates and theoretical foundations of qualitative research methodologies within a sociological context. They will be adept at employing a variety of qualitative techniques, ranging from core methods like ethnography and focus group discussions to advanced methodologies such as case study analysis, narrative analysis, and feminist research approaches. Through practical experience in data collection and analysis, students will develop essential skills for conducting rigorous qualitative research. Additionally, they will be equipped to critically analyze qualitative data and craft detailed research reports, enhancing their capability to present sociologically informed qualitative research with clarity and depth.

SEC – Skill Enhancement Course; AEC – Ability Enhancement Course; VAC – Value Added Course; MD – Multidisciplinary Course

1 Credit (Theory) = 15 Hours; 1 Credit (Practical) = 30 Hours

Course Title & Code		SOCMJ72	MODERN SOCIOLOGICAL THEORIES		
Category of Courses	Major				
Credits& Hours of Teaching		Theory	Practical	Cumulative	
	Credits	3+1			
	Hours of Teaching (Total)	45+15			
Courses Objectives	This course aims to introduce the students to the substantive, theoretical and methodological issues which have shaped sociological thinking. The focus of this course will be on Structural, Functional, Conflict theories, Symbolic Interactionism and Critical theory. The course will also examine the theoretical relevance and analytical utility of these diverse theoretical perspectives' premises, methodology and conclusions in understanding social structure and change				
Course Content					
Units	Course Content				Hr. of Teaching
I	Structural-Functionalism: - Talcott Parsons- Functional dimensions of Social System. - R.K. Merton- Critique and Reformulation of Functional Analysis.				
II	Conflict Theory: R. Dahrendorf –Dialectical Conflict Approach L. Coser-Functional Analysis of Conflict				
III	Symbolic Interactionism: - G.M. Mead – Mind Self and Society - Erving Goffman: The presentation of self				
IV	Theodor Adorno: The Culture Industry Jurgen Habermas - Faith in Reason: Public Sphere and Communicative Action				
Texts/References	- Appelrouth, S., & Edles, L. D. (2020). <i>Classical and contemporary sociological theory: Text and readings</i>. Sage Publications. - Adorno, Theodor W. 2001. <i>The Culture Industry: Selected Essays on Mass Culture</i>. Routledge: New York. - Charon, Joel. M. 2010. <i>Symbolic Interactionism: An Introduction, An Interpretation, An Integration</i>. New Delhi: PHI Learning Pvt Ltd. - Collins, Randall. 1997 (Indian edition). <i>Sociological theory</i>. Jaipur and New Delhi: Rawat. - Craib, Ian. 1992. <i>Modern social theory: From Parsons to Habermas</i> (2nd edition). London: Harvester Press. - Giddens, A. 1987. <i>Social Theory and Modern Sociology</i>. Cambridge, Polity Press. - Giddens, A. and J.H. Turner (1987) <i>Social Theory Today</i>. Cambridge, Polity Press. - Goffman, E. (1959). <i>The presentation of self in everyday life</i>. Bantam Doubleday Dell Publishing Group - Mead, G.H. 1934. <i>Mind Self and Society</i>. Chicago: Univ. of Chicago Press. - Merton R.K. 1949. <i>Social Theory and Social Structure</i>. Free Press. - Pusey, Michael. 1987. <i>Jurgen Habermas</i>. Routledge: London & New York. - Ritzer, George. 1992 (3rd edition). <i>Sociological theory</i>. McGraw-Hill: New York - Turner, Jonathan H. 1995 (4th edition). <i>The structure of sociological theory</i>. Rawat: Jaipur and New Delhi. - Zeitlin, Irving M. 1998 (Indian edition). <i>Rethinking sociology: A critique of contemporary theory</i>. Rawat: Jaipur and New Delhi.				

Learning Outcomes	By the end of this course, students will be able to critically analyze and compare major sociological theories, including Structural-Functionalism, Conflict Theory, Symbolic Interactionism, and Critical Theory. They will gain a comprehensive understanding of how Talcott Parsons and R.K. Merton conceptualized the functional dimensions of social systems and critiqued and reformulated functional analysis. Students will explore the dialectical conflict approach of R. Dahrendorf and L. Coser's functional analysis of conflict. Additionally, they will engage with the symbolic interactionist perspectives of G.M. Mead on the formation of the mind, self, and society, and Erving Goffman's insights into the presentation of self. The course will also delve into critical theory, examining Theodor Adorno's concept of the culture industry and Jurgen Habermas's ideas on the public sphere and communicative action, equipping students with the tools to understand and critique contemporary societal structures and interactions.

Course Title & Code		SOCMJ74	SOCIOLOGY OF EDUCATION			
Category of Courses		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives		This course plan is designed to contextualize the study of education within the discipline of sociology. It begins with a discussion of the major theoretical perspectives and the contributions of sociologists which have left their mark in the study of education and society. It is divided into two parts. The first part acquaints the students with major concepts, theoretical approaches and development of sociology of education. It also focuses on some important aspects which are salient in any discussion of the interface between education and society. The second part shifts to the Indian situation. Beginning with a historical perspective, it moves to the contemporary situation. It discusses some dimensions/themes from the first part and embeds them in the Indian context. Besides looking at the impact of colonialism on Indian education, this paper will also engage with the educational demands as articulated during the freedom struggle as a critique of colonial as well as internal social hegemony.				
Course Content						
Units	Course Content					Hr. of Teaching
I	Theoretical Perspectives in the sociology of education. • Functionalist Perspective • Marxian Perspective • Interactionist Perspective					15
II	Sociological Understanding of Educational Processes • Social Character of Learning • School as a Disciplinary Institution					10
III	Educational Alternatives and Protest • M. K. Gandhi • Paulo Freire					10
IV	Education and Society in India • Socio-historical context: education in pre-colonial and colonial India. • Education, diversities and disparities: tribe, caste, and gender.					10

Learning Outcomes	After completing this course, students will be able to analyse educational systems through different sociological lenses, including Functionalist, Marxian, and Interactionist perspectives, and understand their role in maintaining or challenging social structures. Further, they will be able to understand and appreciate the social character of learning, understanding how social interactions and cultural norms shape educational experiences. They will also be awakened about the educational philosophies of M.K. Gandhi and Paulo Freire, focusing on their advocacy for alternative education systems that challenge traditional power dynamics and promote social justice. Their understanding of the socio-historical context of education in pre-colonial and colonial India and its evolution and impact on contemporary society will also be deepened.

Course Title & Code		SOCMJ81	CHALLENGES OF DEVELOPMENT IN INDIA			
Category of Courses,		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives	The course aims to explore the socio-economic characteristics and developmental challenges faced by Third World countries, with a focus on India. Students will analyze India's population issues, economic development, poverty, inequality, and human resource challenges. The course will also cover the impact of the 1991 New Economic Policy, including liberalization, privatization, and globalization. Additionally, it will address contemporary challenges such as the agrarian crisis, displacement, global warming, social exclusion, digital divide, and the rise of the knowledge economy.					
Course Content	The course content be divided into minimum 3 Units to maximum 5 units along with defined hour of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Characteristics of Third World Countries: India Population Problem and Economic Development, Poverty and Inequality in India, Human Resource Development, Unemployment, Mixed Economy					15
II	Development after 1991: New Economic Policy, Liberalisation, Privatisation Globalisation					15
III	Developmental Challenges: Agrarian Crisis, Displacement, Global Warming, Social Exclusion , Digital Divide, Knowledge Economy					15

Learning Outcomes	Students will comprehensively understand major Indian religions and their practices, examining how faith shapes everyday life. They will analyse and understand religion's intersections with culture, gender, caste, and class. The course will explore religious contestation, revivalism, and new religious movements alongside concepts of secularism, communalism, and fundamentalism. Additionally, students will assess the role of religion in secularization, civil religion, and political contexts, and understand the dynamics of invisible religion in contemporary India.

Course Title & Code		SOCMJ83	QUANTITATIVE RESEARCH METHODS			
Category of Courses		Major				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives	1. Understand the principles and processes of quantitative research design. 2. Develop skills in data collection, including survey design and sampling techniques. 3. Apply statistical techniques to analyze quantitative data using statistical software.					
Course Content	The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.					
Units	Course Content					Hr. of Teaching
I	Introduction to Quantitative Research - Overview of Research Methods: Qualitative vs. Quantitative - Variables: Independent, Dependent, and Control Variables - Validity and Reliability in Research					10
II	Measurement and Scaling - Levels of Measurement: Nominal, Ordinal, Interval, and Ratio - Scaling Techniques Sampling Techniques - Probability vs. Non-Probability Sampling - Sampling Methods: Simple Random, Stratified, Cluster, Systematic - Sample Size Determination - Sampling Errors and Bias Questionnaire Construction					20
III	Introduction to Statistical Software - Overview of Statistical Software: SPSS - Data Entry and Cleaning - Descriptive Statistics: Measures of Central Tendency and Dispersion - Data Visualization: Graphs, Tables, and Charts - Inferential Statistics - Correlation and Regression Analysis - Analysis of Variance (ANOVA)					15

(2009) Discovering Statistics Using SPSS. 3rd Edition, Sage Publications Ltd., London. 5. Gupta, S. P. (2007). Elementary Statistical Methods. Sultan Chand & Sons. Pp.101-108, 115- 118, 131-137. 6. Raftery A E. ‘Statistics in Sociology, 1950-2000’, Journal of the American Statistical Association, Vol. 95, No. 450, (June 2000), pp. 654-661.					
Learning Outcomes	The students will be able to; 1. Have an overview of Research Methods, 2. To know about measurements and scaling, sampling, and questionnaire construction, 3. To use SPSS for analysis.					

Course Title & Code		SOCMJ84	ACADEMIC WRITING AND ETHICS OF RESEARCH			
Category of Courses		Major				
Credits& Hours of Teaching			Theory	Practical	Cumulative	
		Credits	3+1			
		Hours of Teaching (Total)	45+15			
Courses Objectives		1. Understand the principles of effective academic writing. 2. Understand the ethical principles in conducting research. 3. Identify and avoid plagiarism and other unethical research practices.				
Course Content		The course content should be divided into a minimum of 3 units and a maximum of 5 units, with a defined number of teaching hours for each unit.				
Units	Course Content					Hr. of Teaching
I	Introduction to Academic Writing & Writing Techniques					10
II	Title Selection/Framing and Structure of Dissertation					10
III	Citation, Referencing and Plagiarism					10
IV	Ethics in Research: Informed Consent and Confidentiality, Responsible Data Management, Ethics in Publishing					15
Texts/References		1. Carroll, J. (2002) A Handbook for Deterring Plagiarism in Higher Education, OCSLD, Oxford Brookes University, Oxford. 2. Cohen, R. F., & Miller, J. L. (2014). Longman Academic Reading Series 4. White Plains, NY: Pearson Education. 3. Gregory, I. (2003) Ethics in Research. A&C Black, London. 4. Hurling, S. et.al.,2007. Academic Writing Skills and Strategies II. Shinjuku: Waseda University International Co., Ltd. 5. Neil, W. Hamilton, (2002). Academic Ethics: Problems and Materials on Professional Conduct and Shared Governance. Greenwood Publishing Group. 6. Thomson, P. and Kamler, B. (2012). Writing for Peer Reviewed Journals: Strategies for Getting Published. Routledge.				
Learning Outcomes		1. Apply principles of academic writing to create well-structured, logical arguments in written assignments. 2. Utilize reference management tools to organize and format references correctly. 3. Evaluate the ethical considerations involved in designing and conducting research. 4. Recognize various forms of plagiarism and understand the importance of academic integrity. 5. integrity.				

Course Title & Code		SOCMN81	CHALLENGES OF DEVELOPMENT IN INDIA			
Category of Courses,		Minor				
Credits& Hours of Teaching		Theory	Practical		Cumulative	
	Credits	3+1				
	Hours of Teaching (Total)	45+15				
Courses Objectives	The course aims to explore the socio-economic characteristics and developmental challenges faced by Third World countries, with a focus on India. Students will analyze India's population issues, economic development, poverty, inequality, and human resource challenges. The course will also cover the impact of the 1991 New Economic Policy, including liberalization, privatization, and globalization. Additionally, it will address contemporary challenges such as the agrarian crisis, displacement, global warming, social exclusion, digital divide, and the rise of the knowledge economy.					
Course Content	The course content be divided into minimum 3 Units to maximum 5 units along with defined hour of teaching for each unit.					
Units	Course Content					Hr. of Teaching
I	Characteristics of Third World Countries: India Population Problem and Economic Development, Poverty and Inequality in India, Human Resource Development, Unemployment, Mixed Economy					15
II	Development after 1991: New Economic Policy, Liberalisation, Privatisation Globalisation					15
III	Developmental Challenges: Agrarian Crisis, Displacement, Global Warming, Social Exclusion , Digital Divide, Knowledge Economy					15
